

## GUERRILLA WARFARE THROUGHOUT IRELAND

SINN FEINERS CONTINUE ATTACKS ON SOLDIERS AND SAILORS; TROOPS AMBUSHED

(Special Service to Glendale Evening News)  
LONDON, Nov. 6.—Guerrilla warfare was reported from various parts of Ireland today. Advances said despite police reprisals, Sinn Feiners were continuing to attack and ambush forces of soldiers and police.

A Cork dispatch said 200 Sinn Feiners were surrounded by a large body of troops and surrendered.

Fierce fighting took place when a detachment of troops was ambushed near Edgeworths Town. The casualties were not given.

## JAPAN WILL NOT RECOGNIZE AGREEMENT

(Special Service to Glendale Evening News)  
TOKIO, Nov. 6.—The Foreign Office today declared it would not recognize the reported agreement between the Russian Soviet Government and Washington Vanderlip, of California, if Japanese interests are affected. Under the agreement, a syndicate of Pacific coast capitalists was granted concessions in Siberia. Japan contends the agreement is an infringement on her treaty rights and vitally affects her interests in Siberia.

## DOUBT IF HOOVER WILL BE CABINET MEMBER

(Special Service to Glendale Evening News)  
WASHINGTON, Nov. 6.—There is a growing doubt among both Republicans and Democrats here today that Herbert Hoover will be one of the members of the Harding cabinet. Hoover has been mentioned for three portfolios—State, Interior and Commerce departments. One prominent Republican said to be opposed to Hoover is Senator Johnson of California, against whom Hoover ran in the presidential primaries.

## OBREGON CONSIDERS MEETING HARDING

(Special Service to Glendale Evening News)  
MEXICO CITY, Nov. 6.—President-elect Obregon today said he would consider a meeting with President-elect Harding at the United States border as highly beneficial to both countries.

## COURTNEY BACK FROM THE EAST

FINDS BUSINESS CONDITIONS GOOD AND MANY COMING THIS WAY

## OPTIMISTIC SPIRIT EXPECTATION OF GOOD TIMES AFTER ELECTION UNCERTAINTY PREVAILS

H. P. Courtney, of the Southern California Gas Company, returned home a few days ago from a month's business and pleasure trip through the Middle West and far East. Among the cities visited were Minneapolis; Columbus, Ohio; Washington, D. C.; Wheeling, W. Va.; Memphis, Tenn., and El Paso, Texas. Mr. Courtney says he found business conditions generally good and a spirit of optimism prevailing. While workmen had been laid off in some manufacturing plants it was thought to be only temporary and that full time would be resumed after the election uncertainty was over. Everywhere people were talking of visiting California, Mr. Courtney said, many of them to buy homes and settle down, and it seemed that literally thousands of them were talking that way. Many also were anticipating attending the Elks' convention next year.

### Social Welfare Council

The executive board of the Glendale Social Welfare Council held its regular monthly meeting in the City Hall last Monday.

Plans for the winter's work were made. A very helpful one is the work of a committee to do the mending and sewing of working mothers, whose time is so occupied in bread-winning for their families that they need must neglect this branch of their housekeeping.

The Council finds that it is short of clothing. There are many calls for children's garments. Quilts and shoes are also needed. Garments that are worth repairing or remodeling may be left with Mrs. Sinclair, of the Social Welfare Bureau, in the City Hall, on the mornings of Tuesday, Thursday and Saturday, from 9 to 12. There is a committee to repair clothing and another one to make garments from new material.

The Council has done and is doing much good to relieve the distress of the needy, and anyone who has clothing hanging away that could be repaired so as to help some one in want to make a respectable appearance, or to clothe some little child properly for school, is hereby reminded and urged to send it to the City Hall at hours mentioned above.

## FOUR GAMES WON

GLENDALE HIGH SCHOOL FOOTBALL TEAM AWARDED CONTEST BY DEFAULT

The hitherto invincible football eleven of Glendale Union High School went to Azusa yesterday, with some misgivings, to face the very strong team of Citrus Union High. Three games had been played and won by Glendale High but the antagonist this time was known to be a mighty strong aggregation, and certainly proved to be a tough proposition. Game was called and soon both teams were putting forth their best efforts, struggling back and forth over the field, first in one team's territory and then in the other's. Glendale, however, gradually showed up as the stronger of the two contestants and finally, near the close of the first half, with neither side yet having made a score, and the ball in possession of the Citrus team, tackled their player who was running with the ball so strongly as to rattle his temper and he swore roundly. On being sternly reprimanded by the referee he swore again, directing his oaths at that official, so he was put off the field. After a vain effort to induce the referee to change his decision and allow the offending player, who was one of their strongest men, to resume his place on the team, the Citrus Union High aggregation refused to continue the play, so the referee could do nothing but award the game to Glendale.

There are but two more games to play in the championship contest, one with Franklin High next week, and the other with Monrovia. Glendale hopes to win both of these, thus annexing the pennant.

### Profitable Session

The Ladies' Aid of the First M. E. church, together with the members of the Home and Foreign Missionary societies, are deep in plans for a Christmas Bazaar which they will hold on December 11th and 12th.

Much of their all-day meeting last Thursday was devoted to the development of these plans and, there being about 180 members present, much progress was made. Aprons, fancy work and other articles suitable for Christmas gifts, will be on sale at the bazaar, which will be held in the social hall of the church.

Work on comforts which the Glendale Social Welfare Council requested them to make occupied a part of the day.

A substantial noon luncheon was a feature of the meeting.

## RENT PROFITEERS FEW IN GLENDALE

LITTLE COMPLAINT ON THIS SCORE HEARD FROM THOSE WHO LEASE HOUSES

## L. A. PRICES HIGH AMERICAN LEGION WILL PROMOTE HOUSING SCHEME IN NEARBY CITY

There have been very few, if any, complaints of exorbitant rent charges in Glendale. While some of the finer places have been leased, furnished, for monthly rentals of \$100 to \$300, it was to wealthy people who wanted beautiful surroundings and the best and most costly furnishings; hence there was no demur at the prices asked. Rents of the commoner houses have not been exorbitant, considering the rise in building costs and other things. Such has not been the case in Los Angeles, according to the repeated and bitter complaints of the newspapers, one of which stated recently that thousands of reservations for that city had been canceled by Easterners desiring to spend the winter in Los Angeles, with a view to locating permanently, because of reports sent back there of exorbitant rentals demanded. The American Legion posts of the big city are earnestly engaged in promoting a housing scheme to beat the rent profiteers by securing the use of thousands of army tents for temporary accommodation of families dispossessed because of inability to pay the largely increased rentals demanded, and of parties from the East unable to pay the high prices demanded. The city papers denounce the action of the rent profiteers in giving Los Angeles a bad name all over the East as a city of extortioners.

## GEORGE LARKIN IS A GLENDALE BOOSTER

ENJOYS CANADIAN ROCKIES BUT PREFERS HOME TOWN AND ITS SUNSHINE

## WRITE FROM BANFF

IS FILMING RALPH CONNOR'S STORY, "CORPORAL CAMERON"

George Larkin, incurable Glendale booster, who has a beautiful home at 1417 South Brand boulevard, writes The News an interesting letter from Banff, up in the Canadian Rockies.

Mr. Larkin describes the wonders of the scenery, but insists, loyally, that "it has nothing on beautiful Glendale."

Mr. Larkin is filming the Ralph Connor story, "Corporal Cameron." Besides the mountain scenes, a number of others will be taken on the prairies of Calgary, including a spectacular train hold-up by the Indians, with Cameron and the Northwest police coming to the rescue.

Mr. Larkin had a thrilling experience not scheduled in the program one day last week. While shooting the rapids in a canoe, he was carried over Bow Falls and the canoe upset. It was not only a dangerous experience but an unpleasant one, for it was a snowy day with the thermometer down to the zero mark. But you can't keep a good man down, especially if he hails from Glendale, and Mr. Larkin suffered no serious consequences.

The director thought it wonderful and the camera got it all.

Mr. Larkin says food and wearing apparel are high in Canada, and there is a 20% tax on everything.

"So kindly let our many friends in Glendale know," he adds, "that they are living in God's country, and very cheap, at that. The sunshine and climate alone are worth the cost."

Mrs. Larkin accompanied her husband and is reported by him to be enjoying it, though she, too, will be glad to be back in her home in Glendale, about Christmas time.

### Klieberts Building

J. H. Kliebert, who last week moved his family from 213 West Elk avenue to 507 South Glendale avenue, yesterday took out a permit for the erection of a 6-room house and garage on the front of the lot where he now lives, to cost \$4000. Several months ago Mr. Kliebert moved an old-style, five-room house from South Glendale to the rear end of the flat-iron shaped lot at the southwest corner of Lomita and Glendale avenues, added two rooms, remodeled the interior and plastered the exterior, making a modern home of it. The lot is 30 feet across the rear and 102 feet across the front, which is on Lomita. The new house will be quite an ornament to that section of the city.

WEATHER FORECAST—Cloudy tonight and tomorrow. Probably rain.

## BRIEF NOTES ON LIBRARY BOOKS

COLLECTION JUST READY TO BE ISSUED VARIED AND UP-TO-DATE

## ABREAST OF TIMES

GLENDALE LIBRARIAN IS CONSTANTLY IN TOUCH WITH THE PEOPLE

That Glendale Public Library keeps abreast of the times is shown by the collection of new books now ready to be issued. Brief notes on a few of them follow:

William and Wilhelmina, by Frances R. Sterrett.

William Kerwin, brooding over being rejected by the army's examination board because of weak lungs, becomes a recluse. After a dreadful storm he finds a little girl in a row-boat and despite his efforts is never able to find her people. Little Wilhelmina proves to be the means of bringing William back to civilization. She is a charming little girl, with none of the priggishness or exaggerated optimism that have irritated many readers in child heroines. Her lively imagination transforms even the commonest things and she has a spirit of friendliness toward every living creature "except snakes."

The story is rich in humor and contains many surprises.

The Reign of Patti, by Herman Klein.

This is the authorized biography of Patti, perhaps the world's greatest prima donna and certainly one of the most splendid personalities of the past century. It reads like a modern Cinderella story.

Mr. Klein, the author, is a musical critic and a scholar of eminent ability. He knew Madame Patti all her life and followed her career in detail. His biography is a labor of years.

"The Reign of Patti" is a book for every music-lover, every reader interested in a life-story as splendid as a fairy tale and for every reader who enjoys coming in contact with a personality as remarkable as it is rare.

The Journal of a Disappointed Man, by W. N. P. Barbellon.

This is an extraordinary autobiography of a rich, many-sided individuality. Its reading will prove to be an absorbing adventure into the bewildering realm of human character.

The Crimson Alibi, by Octavus Roy Cohen.

This is a mystery novel—one of the sensations of detective fiction. Mary Minds Her Business, by George Weston.

Mary falls heir to a large New England manufacturing business. Her shrewd, unscrupulous uncle is manager. Mary makes herself president and introduces woman labor to break the strikes. Of course, Mary's love story is woven into this story of modern industry.

Joan of the Island, by Ralph Henry Barbour and H. P. Holt.

In a scene laid in the South Sea Islands, a centre of a net of intrigue where pearl poachers wage grim battle, there unfolds a series of gripping adventures interwoven with a pleasing romance.

Twelve Hundred Dollars a Year, a Comedy in Three Acts, by Edna Ferber and Newman Levy.

This play is a timely satire on the absurdity of professors at \$1200 a year and street sweepers at \$2500. Professor Stoddard dares to give up a pauper's respectability for the affluence of a mill worker. Out of this situation develop hilariously funny surprises.

The Little White Bird, by J. M. Barrie.

A delightful book from the pen of the author of "The Little Minister," "A Window in Thrums," etc.

Sunbeams, Inc., by Julian Street.

It deals with the merry career of Harry Bell Brown, H. Bell Brown, and Belwyn Brown, successively newspaper man, ad man and Sunbeams, Inc., professional dispenser of smiles and optimism.

This is a book in Julian Street's happiest vein.

### Nimble Finger Club

Miss Ruth Stafford entertained the members of the Nimble Finger club of the Daughters of Veterans at her home, 119 North Central avenue, last Tuesday evening.

True to their name, the ladies' nimble fingers flew so rapidly that their third comfort was finished during the evening, and is now on sale.

Hot chocolate and cake were served by the hostess during the social hour. She was assisted by Miss Alda Gervais.

The club is planning for a Christmas sale early next month, at which they will offer aprons, fancy work and rag rugs.

## LAST NIGHT'S RAIN REFRESHING

PRECIPITATION OF .11 BRINGS SEASON RAINFALL UP TO .51 OF AN INCH

## 3.32 ON NOV. 6, 1919

INTERESTING TO NOTE VARIATION IN RAINFALL IN CONTIGUOUS SECTIONS

Last night's gentle rain amounted to .11 of an inch, bringing the season's total to .51, as compared to 3.23 at this time last year.

People who observe the rainfall records as published in the city dailies often wonder at the great discrepancy in the precipitation in sections close to each other, but that is a California peculiarity. For instance, the rain just preceding that of last night showed .27 of an inch at Mr. Bartlett's, 347 North Brand, .35 at T. W. Preston's, 330 North Jackson, only four blocks away, and a little over two inches on Verdugo Road and in Eagle Rock, while at Pasadena, three to four miles further east, only an inch of rain fell. For the season thus far Mr. Bartlett's record is .51, Mr. Preston's .59. These discrepancies will occur all during the season, but they will not be so great in big rains as in small showers, if the records of previous years are followed. Mr. Wilson, only six miles east of Glendale, has several inches more rain than Glendale every year and Sierra a great deal more than any of its surrounding communities, while Long Beach and San Pedro have considerably less each year.

This forenoon's gentle rain amounted to .04 of an inch, bringing the total up to .55.

## FRIENDS FROM THE EAST, SOUTH, WEST

RIGDON'S GREET FRIENDS FROM JAPAN, COLORADO AND SAN DIEGO

## HUNTING HOMES

ENTERTAIN IN THEIR BEAUTIFUL NEW HOME ON WEST DORAN STREET

Nathan Rigdon, the contractor, who came here from San Diego about a year ago and has since built some very fine homes in Glendale, most of them on North Orange, North Central avenue and Doran, is earnestly searching for places to rent so he can locate friends from Las Animas, Colo., Mr. and Mrs. Wm. H. Glendenning, and Mr. Van from San Diego, who earnestly desire to live in Glendale and hope to find accommodations here, intending to buy or build later. Mr. and Mrs. Rigdon, who are now in their beautiful new home at 224 West Doran, are expecting today or tomorrow J. B. Bender and wife of Holton, Kansas, who have been in Tokyo, Japan, attending the World Sunday School convention. Mrs. Rigdon and Mrs. Bender were school girl chums. The Benders expect to spend a week or two in Glendale before returning to their home in Kansas.

Mr. Rigdon expects to soon start the erection of another fine residence of tile and plaster construction, on the north side of Doran, just across from the one he is now building.

## WATER SYSTEM

NEW RESERVOIR FOR GRAND VIEW DISTRICT WILL COMPLETE CHAIN

It will be remembered by those who read the reports of the last two meetings of the city trustees that Mrs. Luna Scott offered to the city of Glendale seven acres at the corner of Tenth street and Vine avenue on which to locate a large reservoir for the distribution of water for all purposes over the Grand View district. The price quoted was \$1600 an acre and the trustees accepted the offer on condition that Mrs. Scott take in payment bonds of the recent issue voted for water and light extensions. Her acceptance has not yet been reported to the trustees, but it is thought it will be soon.

The plan is to provide a temporary small reservoir for use until the large one can be built. When that is done a connection will be made between the main reservoir supplied from Verdugo Canyon, the pumping plant on San Fernando Road and the new reservoir up on Tenth street. This trunk line will extend along Doran street to connect the main reservoir and pumping plant. By this system when one reservoir is depleted it will be filled from the others.

## HARDING LEAVES FOR POINT ISABEL, TEXAS

PRESIDENT-ELECT LEAVES MARION, OHIO, FOR FIRST REAL VACATION IN NEARLY A YEAR

(Special Service to Glendale Evening News)  
MARION, O., Nov. 6.—President-elect Harding left Marion today for the first real vacation after nearly a year's steady campaigning. A small group of the most intimate friends of Senator Harding and Mrs. Harding are accompanying them. Before departing, Harding announced flatly he would give no consideration to selection of a cabinet during his vacation. The party will spend about ten days at Point Isabel and then cruise to the Panama Canal zone.

## ROUND-THE-WORLD-CRUISE EXTRAVAGANT

(Special Service to Glendale Evening News)  
WASHINGTON, Nov. 6.—Representative Blanton, Democrat, today in a letter, served notice on Secretary Daniels that he will fight the proposed "round the world" cruise of 200 of America's biggest warships, planned as an aid to recruiting. Blanton attacked the plan as needlessly extravagant, the recruiting advertisements as exaggerated, and declared the trip will cause international jealousy and might end in war.

## JAPANESE CALL MEETING TO FIGHT NEW LAW

(Special Service to Glendale Evening News)  
SAN FRANCISCO, Nov. 6.—All indications today pointed to the conclusion that the battle over the California anti-alien land law excluding Japanese from holding real estate by title, lease, guardianship or through corporations, was entering its second stage, which will be in the courts. The Japanese Association of America, representing 60,000 Japanese, has called a meeting of its executive committees to be held here November 15 to outline its procedure.

## UNWRITTEN HISTORY COME 2500 MILES BY AUTOMOBILE

SUCCESSFUL PLOT OF FORD AGENCY EMPLOYEES AGAINST BRIDEGROOM

Some of the unwritten history of the events following a recent society wedding in Glendale is being whittled about here and there among those concerned in the kidnapping of the groom, Herbert C. Ferguson. It was at the White Inn that the exciting events occurred. When the lights went off, ostensibly to allow the taking of a flashlight photograph but really to give the bride party a chance to get away, some of the plotters not in the secret made a grand rush to the front door instead of the back window and three of them fell into the fountain reservoir, 6-foot 3, Sam Belcher landing on his back and getting such a thorough soaking that he had to go home and change his clothes, while Holmes and McClellan escaped with only a slight wetting.

The ignition system of Mr. Whitaker's car had been tampered with, so he could not start it and aid in rescuing the groom from his captors, who paraded him about the streets in a cage and then landed him at his apartments after first taking him to the Elks' club room and introducing him to his assembled brethren. "Nicky" was the most disgusted man of the evening, for it was his machine the bride and groom had intended to escape their tormentors in, but it was discovered in the dark corner where it had been parked, and the scheme frustrated. It was an exciting time for bride and groom and near relatives while it lasted, but all is forgotten and forgiven now. The Ford bunch who planned and carried out so successfully the plot against their fellow employe are patting themselves on the back for their strategy.

## NEW SALESMAN

R. C. TALBOTT HELPING GEO. E. CLAYTON OF THE DODGE AGENCY

R. C. Talbott, whose home has been in Glendale for the past two years, but whose business has heretofore taken him out of town a great deal of the time, has become connected with Geo. E. Clayton's Dodge agency as a salesman. Mr. Talbott has had several years' experience in the automobile business and his efficiency in the line of salesmanship has been demonstrated during the few days he has been at his new post by the disposal of several Dodge cars. Messrs. Clayton and Talbott both think that the automobile business will continue brisk from now on.

### Visit Daughter

Mr. and Mrs. N. M. Boynton of San Francisco, are visiting their daughter, Mrs. G. A. Whitaker, of 518 West Alexander street. They came to Glendale to attend the wedding of their granddaughter, formerly Miss Caro Whitaker.

### Business District

The wrecking of the brick building on South Brand boulevard where J. D. Simmons has been conducting a real estate business, is significant of the rapid growth of Glendale's business district; this is the second time within the last few months that Mr. Simmons has been compelled to move his building. When the J. M. Blankenship building was decided upon, Mr. Simmons moved his building, which occupied that site, to another location further down in the same block, leasing the ground upon which to place it. The owner of the property, H. Blumenthal, is now planning the erection of a fine business block there, so Mr. Simmons is again compelled to move his business and his building. He has about finished wrecking it, and has sold the brick.

### Executive Board

The executive board of the Central avenue P. T. A. met in regular session yesterday afternoon.

A patriotic program was arranged to be given in the school next Wednesday afternoon to impress upon the minds of the children the significance of Armistice Day.

## Personals

W. Paul Elliott is moving from  
Vine street to 467 Ivy.

The large, two-story house at 123  
South Glendale avenue is to be mov-  
ed next week to 208 South Cedar.

J. J. Burke is building a three-  
room house and a garage at 202 W.  
Palmer avenue, to cost \$1100.

T. D. Taylor is moving from the  
Ginger flats, 130 South Adams, to  
426 Piedmont Park.

M. C. Kahn is moving from 407 W.  
Park avenue across the S. P. tracks  
on the same street, which takes the  
name of Parkdale avenue on that  
side. Mr. Kahn moves to No. 4166.

Mrs. Dr. of Riverside, who has  
been the guest of her son and wife,  
Mr. and Mrs. Elmer Dir, of 221 East  
Maple street, for the past two weeks,  
has returned to her home.

Not a single complaint was written  
on the records at police headquarters  
all day yesterday, which certainly  
speaks volumes for a city of 20,000  
people. There were a few infrac-  
tions of the traffic law, but these do  
not appear on the criminal record.

Mrs. Emily Brown Anderson, who  
is building a five-room house at 712  
South Glendale avenue, yesterday  
took out permits for two more resi-  
dences in the same vicinity at 710  
and 714 South Glendale avenue.  
Each is to be of four rooms and to  
cost \$1400.

The Hart Realty Co. has opened  
an office at 120 North Brand in the  
front part of the room occupied by  
Nicholson's bicycle shop. Louis A.  
Hart, of 719 Raleigh, is the propi-  
etor. He has been connected with  
a Los Angeles auto agency for the  
past three years.

Architect Arthur G. Lindley has  
been employed to prepare plans for  
a frame and plaster church building  
for the First Methodist congregation  
of Reedley, Calif. There will be an  
auditorium to seat 1000 people, also  
Sunday School and social rooms. The  
building will cost about \$50,000.

City Manager Watson starts at 7  
this evening for Chico, to attend the  
22nd annual convention of the  
League of California Municipalities,  
which meets on Monday, Tuesday,  
Wednesday and Thursday of next  
week to consider the many problems  
that arise in the conduct of municipal  
affairs.

More than \$100,000 worth of new  
buildings are in sight for early con-  
struction and permits will be taken  
out probably next week. Included  
in these are the additions to the High  
School group, Wishart's 50x150-foot  
garage on South Brand, the Harrow-  
er laboratories, a 1-story building  
and basement brick building, and  
several fine residences.

For many weeks J. W. Fairchild  
and workmen he employed to assist  
him have been tearing down the  
large sheds and other buildings in  
the lumber yards of the Bentley-  
Schoeneman Company and now the  
work is nearly completed. When that  
space is built up with handsome resi-  
dences or business buildings, it will  
be a great improvement to that part  
of the city.

Earl P. Hammond, a High School  
junior, has been confined to his bed  
for ten days on account of an injury  
to his knee sustained while playing  
football, and an operation was neces-  
sary. His many friends will be  
pleased to know that he is rapidly re-  
covering and that he will soon be  
able to return to his classes. Earl  
is the son of Mr. and Mrs. W. S.  
Hammond.

Mrs. J. B. Brown's beautiful new  
Spanish style, plastered exterior, six-  
room residence at 410 North Mary-  
land avenue, is nearly ready for oc-  
cupancy, the light meter having been  
ordered installed yesterday. This is  
right north of a similar sized and  
similar style house her son Howard  
is having built, the two adding much  
to the beauty of that residence sec-  
tion. Chas. Newton's new residence  
at 520 East Windsor Road is ap-  
proaching completion, also.

Mrs. Frank H. Ray, of Medford,  
Ore., daughter of Mr. and Mrs. W.  
S. Hammond, 118 South Jackson St.,  
after visiting with relatives and  
friends in Oakland several weeks, is  
at the home of her parents here and  
will make an extended visit, includ-  
ing Long Beach and other places be-  
fore returning to her home. Mrs.  
Ray has not been in Southern Cali-  
fornia since she was a child and is  
greatly impressed with the beautiful  
Glendale homes.

Mrs. T. M. Furst of 611 East  
Broadway was hostess at a dainty 1  
o'clock luncheon Thursday. The  
guests spent the afternoon in social  
intercourse and sewing. Those pres-  
ent were Mesdames George Robin-  
son, Cecil Crandall, Smith MacMul-  
lin, Bunny McIntyre, Robert Lyons  
and F. W. Pigg of Glendale; Mrs. O.  
J. Furst of Los Angeles and Mrs.  
Walter Lucas of Kentucky. Mrs.  
Furst was assisted by her mother,  
Mrs. F. W. Pigg.

## "GUTHRIE CENTER"

LOS ANGELES POSTOFFICE  
SHOULD BE INFORMED OF  
ITS LOCATION

How it has grown! First, a mere  
"Flight of Fancy" or "Imagination,"  
if you please, as we referred to the  
corners of Los Feliz and Brand as  
"Guthrie Center," but now a grow-  
ing reality. How aptly that is  
borne out, as recently a beautiful,  
glass-encased, private "bus," with a  
dark-hued Ethiopian at the wheel,  
drew up to our office, when the oc-  
cupant, emerging, exclaimed: "So  
this is Guthrie Center," quite new,  
is it not?"

"The postoffice in Los Angeles  
could not tell me the exact location."  
How happy she was. She came to  
buy Glendale soil. Our good friends  
"had a heart" on account of our ap-  
parent loneliness and placed their  
signs all around us shortly after we  
opened up and now—behold, a new  
office next door, so close that we  
will be able to shake each other's  
"mitt" through the window.

That bears out our repeated claim  
and contention that Glendale is so  
large now that business centers will  
be an absolute necessity. You just  
naturally can't keep 'em down.  
Welcome to "Guthrie Center."  
CHARLES B. GUTHRIE,  
Von Oven, Mgr.,  
South Brand Branch.  
"We never slumber."  
P. S.—Look at: "He made \$500  
in five minutes."

### Christmas Cantata

The choir of the First M. E.  
church began the study of their  
Christmas cantata last week, under  
the direction of Mrs. Randall. The  
music chosen is Hawley's "The  
Christ Child," and its rendition by  
the First M. E. church choir prom-  
ises to be one of the worth-while  
musical events of the Yule-tide sea-  
son.

One of the most generous of men  
is the one who starts to give the devil  
his due.

ery Thursday night at 8 o'clock at  
111-A East Broadway. A hearty  
welcome for visiting brothers and  
newcomers.

## A PHYSICIAN

of long experience told us the  
other day that, when the time  
comes, few men dread death itself  
FOR THEMSELVES. There  
seems to be some kind provision  
of nature which enables men to  
meet the inevitable calmly and al-  
most contentedly. What they do  
dread, he said, is leaving their  
families unprotected for, and he  
told of some sad scenes where  
men, about to die, repented in  
bitter self-reproach their failure  
to assure, while yet there was  
time, the comfortable future of  
those looking to them for material  
support. Don't let this happen to  
you. Make SURE provision,  
through Life Insurance. You  
CAN'T make it SURE in any other  
way. Eighty-seven per cent of ev-  
erything that men leave at death  
is proceeds of Life Insurance.

## A LAUNDRY PROBLEM IN DIVISION

Our family laundry service is merely a problem for you in  
simple division.

Divide your present washday toil and worry by four and you  
have the answer.

Multiply the time you now have for yourself by four and you  
have the proof.

We call for your family bundle and wash everything sweetly  
clean in soft, fresh water with the purest of mild white soaps.  
Yes, it does sound good, and it's even better in actual practice.

Just phone for our driver—we are satisfied that one trial will  
convince you.

## Sunday Services at the Churches

**FIRST METHODIST**  
Corner Wilson and Kenwood. Rev. Clyde Monroe Crist, D. D., pastor. Sunday school (graded) 9:30. Prof. A. W. Tower, superintendent. The largest attendance ever last Sunday. We want 500 next Sunday. Preaching at 11 a. m. and 7:30 p. m. Class meeting at 12:15. Rev. C. R. Norton, leader. Junior League (ages up to twelve years) 3 o'clock. Miss Bessie Ross, superintendent. Intermediate League (ages 12 to 14 years) 6:30. Mr. Leeds, superintendent. Epworth League, 6:15. Leader, William Peart. Subject, Our Church Privileges and Obligations. (Psa. 84:1-12) Brotherhood roundtable, 7:00. Mr. Lindley, president. "A place for men." The pastor's morning sermon theme will be: Elijah in 20th Century Clothes. At 7:30, subject, "The Greatest Sinner in the World." This will be an evangelistic service with lots of young people. The acousticon is installed for the benefit of those who hear with difficulty. The choir will render the following musical numbers, Morning, Prelude D Minor (Mendelssohn); Anthem, Gloria (Mozart); solo, "The Holy City" (Adams) by special request, Miss Isabelle Isgrig. Postlude, Cononetta, (Fidelio). Evening: Prelude, Allegro (Mourlan); Anthem, Savior Like a Shepherd (Neidlinger); Gospel Duet "Sweet Will of God," Mrs. Dunn and Mrs. MacGregor. Postlude (Flagler.) Come to "the church that seems like home."

**CENTRAL CHRISTIAN**  
Corner Louise and Colorado streets. Clifford A. Cole, minister. Bible school, Willard F. Learned, superintendent, at 9:30 a. m. Classes for all ages. A real school. Morning worship at 10:30 with sermon by the minister; topic, "The Churches' Business in This Hour." The choir will sing, "Our Saviour Lives," by Schoebel. The evening sermon will be, "Why Men Go to Bed Hungry." A six weeks' school of missions or world problems will begin tomorrow night at 6:30. Six separate study classes and discussion groups will be held each Sunday evening. It will be non-denominational and all are invited. There will be no charge. Following the study tomorrow evening, a series of pictures will be shown emphasizing the story of one of the text books. You are invited to all services of the Homelike church.

**PRESBYTERIAN**  
Church of the Lighted cross. W. E. Edmonds, pastor. Very special service Sabbath evening, 7:30. Organ recital, 7:15. Raphael Emmanuel of Asia Minor will speak of the people and customs of Mesopotamia. He will speak in a native made costume. Mr. Emmanuel has spoken in all the larger churches in Southern California and will no doubt have a large audience here on Sunday evening. Morning worship, 11 o'clock. The pastor will preach. Sermon topic: "Expect great things from God. Attempt great things for God." Sabbath school, 9:30. H. L. Finlay, superintendent. Four Endeavor meetings at the usual hour. Musical program, morning: Prelude, "Remember" (Grieg); quartet, "The Lord Is Come" (Lorenz); offertory, "Andante" (Gounod); tenor solo, "Gloria" (Buzzi-tecchi) Orrin Padel; Gospel solo, "Only Remembered by What We Have Done" (Sankey) Mrs. Fannie Marble Rette; postlude, "Elegie Remantique" (Biggle). Evening—"Cantilene Nuptiale" (Dubois); "Intermezzo" (Bigot); "Berceuse" (Neruda); quartet, "Tilley Shall Presoner That Love Thee" (Wilson); offertory, "Melody" (Guilmant); contralto solo, "The Good Shepherd" (Van de Water) Mrs. Fannie Marble Pettis; postlude, "Hosannah" (Biggle.)

**FIRST BAPTIST**  
Ernest E. Ford, pastor. Roy L. East, superintendent. Sunday school, 9:30. Lesson, Matt. 6:19-34. Public worship at 11 o'clock. Sermon theme, "The Present Christ." Young People's meeting at 6:30. Miss Faith Tarling, leader. Mrs. Dudley will speak at this meeting. All young people invited. Evening service at 7:30. Song service, followed by living pictures of some very interesting people; given by Rev. and Mrs. Dudley. Prayer meeting on Wednesday evening at 7:30. Lesson for study, Luke 1:1-13. If you want a spiritual blessing come to this meeting. Everyone invited.

**CHRISTIAN AND MISSIONARY ALLIANCE**  
Meetings every Tuesday and Thursday, 7:30 p. m. Gospel Tabernacle, 310 E. Chestnut Street, corner of Louise. Full Gospel—Jesus Christ—Saviour, Sanctifier, Healer and Coming King.

**THE PARTY** who took the basket from the Glendale Groceria by mistake, kindly return it.

## PRICES PERMANENT

### MOTORCYCLES WILL NOT COST LESS; GOOD REASON FOR IT

Motorcycles will not follow in the wake of the recent panicky downward trend of automotive prices. This fact has been definitely stated by every manufacturer in the cycle industry following a meeting of the Motorcycle and Allied Trades Association in Chicago.

The reasons are obvious. The modern motorcycle is representative of the highest type of mechanical construction. Manufacturers of motorcycles cannot be termed profiteers since their average profit for the past year figures at approximately 8 per cent, and this before federal taxes are deducted. The makers of motorcycles and their dealers do not fear the result of this decision, nor do they consider themselves in competition with the cheap car. The motorcycle is considered in a field of its own and appeals to an entirely different class from the users of the cheap car. Motorcycle riders of today are for the major part clean-cut, red-blooded young men to whom the motorcycle's sporting propensities present an attraction not governed by price, but rather by quality.

**CENTRAL AVENUE METHODIST**  
Corner Palmer and Central avenues. Rev. V. Hunter Brink, D. D., pastor. This is special go to church Sunday. Bible school, 9:45 a. m., James L. Brown, superintendent. "The School That Is Different." Special music. Classes for everyone. Junior League, 11 a. m., Mrs. M. A. Hewitt, superintendent. Morning service, 11 a. m., Rev. V. Hunter Brink will preach on "A Job for Everyone and Everyone on the Job." Special music by choir. Epworth League, 6:30 p. m., Mr. S. J. Matthiesen, leader. Everybody welcome. 6:30, in the Social hall.

**CHRISTIAN SCIENCE**  
First Church of Christ, Scientist, corner Maryland and California avenues. Service Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject, Sunday, Nov. 7, "Adam and Fallen Man." Sunday school at 9:30 a. m. Wednesday evening testimony meeting at 8 o'clock. Reading room, 135 South Brand Boulevard, open daily except Sundays and holidays, from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 9 until 9 o'clock.

**ST. MARK'S EPISCOPAL**  
Corner of Louise and Harvard streets. 9:45 a. m. Sunday school; 11 a. m., sermon by the Rev. Dr. Cornell. Holy Communion on first Sundays.

**CATHOLIC**  
East Elk near Adams street. Mass at 8 o'clock. Sunday school at 9. Mass at 10:30. Sermon in English. Everybody welcome. James Stephen O'Neill, pastor.

### MR. SCHWAB'S TEN COMMANDMENTS OF SUCCESS

1. Work hard. Hard work is the best investment a man can make.
2. Study hard. Knowledge enables a man to work more intelligently and effectively.
3. Have initiative. Ruts often deepen into graves.
4. Love your work. Then you will find pleasure in mastering it.
5. Be exact. Slipshod methods bring only slipshod results.
6. Have the American spirit of conquest. Thus you can successfully battle with and overcome difficulties.
7. Cultivate personality. Personality is to a man what perfume is to a flower.
8. Help and share with others. The real test of business lies in giving opportunity to others.
9. Be democratic. Unless you feel right toward your fellow men you can never be a successful leader of men.
10. In all things do your best. The man who has done his best has done everything. The man who has done less than his best has done nothing. — Bethlehem Ship News.

### AUTOMOBILE NO LONGER A LUXURY

THEIR USE HAS REVOLUTION-  
IZED SOCIAL LIFE IN  
AMERICA

#### PHYSICIAN'S BOON

INCREASED THE PRODUCTION OF  
FARMS AND ADVANCED OUR  
EDUCATIONAL FACILITIES

More than 100,000 passenger cars are used daily by physicians and surgeons whose actual spheres of labor are thus immeasurably increased. Far more important, already thousands of lives have been saved through the ability of the practitioner to eliminate time and to arrive at the place of casualty or sickness.

According to the Farm Journal, 2,366,475 passenger cars, or about one-third of the motor vehicles in the United States, in June, 1919, were owned and operated by farmers. More important is the fact that almost two-thirds of all the new cars made are sold in the country. These automobiles nearly double the farmer's productive force, as anyone who has been on a farm can see at a glance. Most of them pay for themselves many times in the course of a year, while they last many years.

The trip to town takes from one-half to one-third of the time formerly required when wagons were in vogue. The hours of the hired man and the farmer thus are made more productive while his market is broadened in its scope.

**Spend Evenings in Town**  
The farm laborer of today can spend his evenings in town if he so desires, thus making life more worth while at a time when farm labor is a commodity of utmost importance. The farm wife no longer lives an isolated life. She is able to shop in town, to go to the community center gatherings, to mingle with her neighbors. The community motor bus passing by the farm each morning takes the children to school where they study in modern, commodious structures with well paid teachers, instead of leaving them, as in other days, to the more picturesque but inefficient school with one teacher and intermittent sessions.

Church life is stimulated, as it is found that many can donate funds for one central church where in the

past distance made centralization impossible. The borrowing power of the farmer is increased through the greater accessibility and marketing power made possible through the use of the motor vehicle.

**Salesmen Use Passenger Cars**  
Thousands of salesmen now use passenger cars. Territory handled by each has been greatly increased and in like measure the cost of distribution is cut down, while those living in more remote places have an opportunity to see broader lines of goods.

The banker, the big business man, the professional man, finds his own value increasing in a measure which affords no basis for statistics, but which must be of incalculable worth because of the saving in the costly element of time.

Another factor in the use of passenger cars which is perhaps worthy of comment as affording an index to the effect of the car upon many diversified industries, is shown by an inquiry into the telephone business. It was found that in the system centering in Philadelphia alone, for example, there were 514 passenger cars used by the company. There were 656 such cars used by the New York system. Each car used by a lineman multiplies the amount of line he can keep in order and enables him to handle break-downs more rapidly than formerly. Again, there is a social value in the possible protection suggested through the elimination of time in this work. All subdivisions of the government, from officials in national life to those in townships, have found the passenger car of tremendous value in their work.

Engineers engaged in highway work, in reclamation surveys, in sanitary operations have saved literally millions of dollars to taxpayers through the motor vehicle, and the usage is continually increasing.

**Red Cross Uses Cars for Work**  
The Red Cross uses passenger cars in rural hygiene work, the Y. M. C. A. takes care of its country branches by this means, while North Carolina, as an illustration, has purchased seventy-five cars for use of country rural welfare directors.

Another form of the great social service which the automobile is constantly rendering is found in the relief of congestion in the cities. The national housing problem is an acute one and too generally under-

stood to require detailed description here. A few instances of the manner in which the car is bringing relief are of value, however, to the student.

Thirty-eight per cent of the car users who replied to the N. A. C. C. questionnaire replied that they had found their cars of direct value in solving their home problems.

**Workers Save Money**  
In Detroit, workers have to pay \$75 a month for apartments in the city to be within reach of car lines, and yet have to spend from one to three hours in getting to work. Hundreds have purchased automobiles and are settling along roads leading out of the city, where they not only have real homes and increased health but often save money. One estimated he had made nearly \$3 a day on his car since his factory was working overtime and he could put in at the bench two hours formerly spent on the street car.

The ultimate solution of the great housing problem of the modern city will be found to lie in the passenger car, and the slums will ultimately disappear before the blast of the automobile horn.

#### Home Owners Also Benefit

Home owners, as well as rent payers, have benefited from the use of the passenger car; this form of overland transportation has opened up to use, and to consequent increased value, thousands of acres of valuable lands around all of our large cities. Near New York City, Chicago, Detroit, St. Louis, Kansas City, San Francisco, Los Angeles, Cleveland, Baltimore, Denver, Boston, Philadelphia, and other major cities may be found dozens of home centers being developed where the main means of communication with the city is the automobile. In the smaller cities the residential sections are developing further from the business districts and property values are increasing regardless of trolley car lines.

In rural communities the effect which the appearance of the automobile has had in checking crime has been startling. The community posse no longer depends upon the horse and the use of the passenger car in pursuit has been of tremendous value. Indirectly, the effect in promoting education and breaking down isolation is gradually eliminating morbidity, insanity and crime. The automobile is fighting valiantly the great white plague of tuberculosis. Fresh air and sunshine are the most effective preservatives and cures for this disease. The automobile is the agency which gives out-of-door life to millions of owners.

**Autos Promote Outdoor Life**  
From the standpoint of recreation, the passenger car has done more

than any other modern agency to promote healthful outdoor life. By carrying the worker to outlying districts it has caused him to become interested in gardens and in farming. It has given him the opportunity to take up various sports calculated to increase health. The man of the family no longer takes his pleasure by himself. All members of the family go together on outings.

The great national catastrophe which threatened England when her rail lines operation was stopped was avoided through the use of the passenger car. Starvation, the menace of any government, was prevented through this second line of transportation. Any local or national emergency can be met in the same way with the aid of the automobile. It is scarcely necessary to go further and to point out the vital part played by motor transportation in the world war and what it could do should military conflict at any time confront the United States.

It is estimated that in 1919 the passenger cars of the nation carried nearly 50 per cent more passenger mileage than did the railroads. There are no general figures available for comparison with the trolleys, but the following statement from Philadelphia shows the importance of this figure:

"If the street cars had to take up the burden now carried by passenger automobiles, at least a thousand more trolley cars would have to be operated constantly in that city during the entire business day."

All the railroad and street car mileage in the United States combined could not take up the burden of traffic which our constantly growing population and industry has generated.

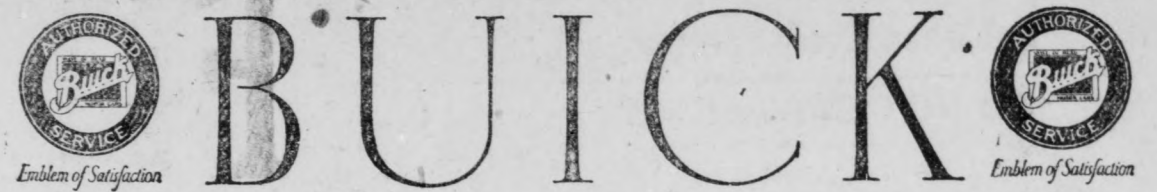

### GARDNERS MOVING

B. G. SUTHERLAND LOOKS FORWARD TO A BIG BUSINESS THIS WINTER

"The Gardner Standard, 100 per cent values; every transaction must be a satisfactory one."

The above is a motto of the Gardner Motor Company, and every representative of the concern realizes that it was adopted for no idle purpose. As B. G. Sutherland, the local agent, says, "Whenever I sell a Gardner I know that we have another satisfied customer and I know that I am not going to lose his friendship later."

Mr. Sutherland says that the prospects are bright for a big business this winter, for prospective purchasers are already becoming more numerous. He has a Gardner engaged for delivery next week.

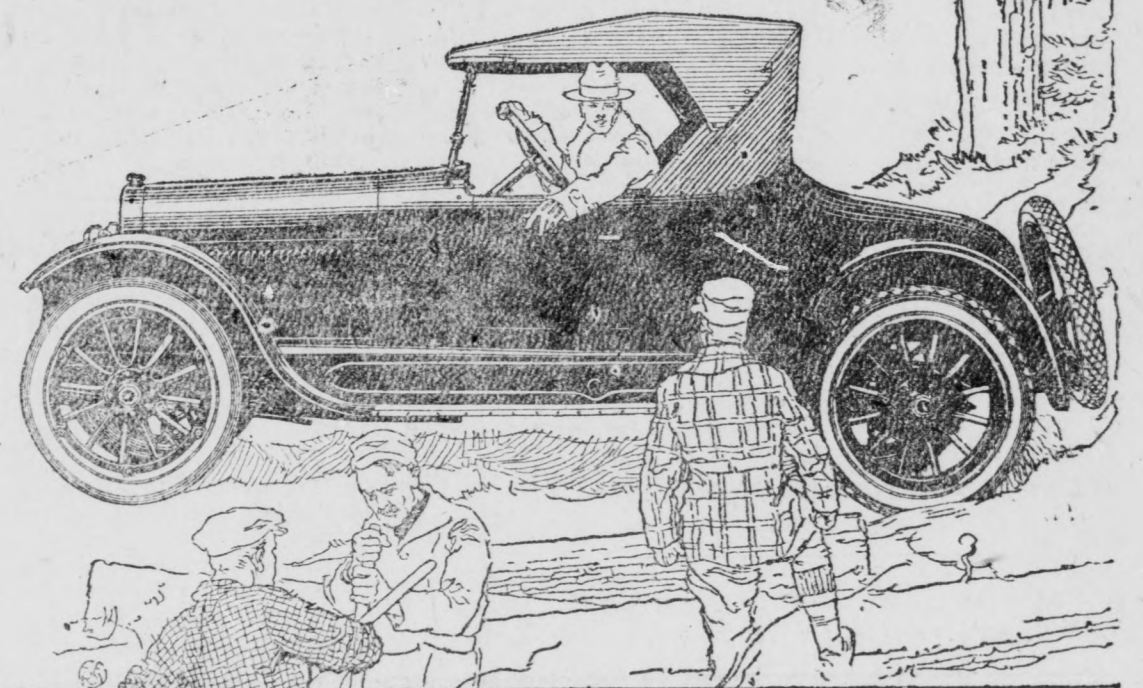

**B**USINESS men and professional men, in choosing a car, place dependability first. That is why so much of the important work of the day is entrusted to Buick. For those calls where time is important and getting there essential, Buick can be depended upon for swift, sure transportation. You will find among the new Buick Twenty One Models—the car which exactly suits your business needs and the needs of your family. The mechanical excellence of the car you choose is backed by a nation-wide authorized Buick Service.

Published Every Saturday

### DO NOT CURTAIL IT

As a result of the curtailment by bankers in some parts of the country of the credit of automobile dealers, numerous concerns have sprung up whose reason for existence is the financing of the automobile industry. The theory of these bankers is that limiting the credit of the automobile dealer is one way of discouraging extravagance. From one point of view this may seem a proper summing up of the situation. Considering the subject in another and broader sense, however, brings one to a different conclusion.

There is no doubt that in these recent days of plenty there has been much extravagance. But this subject, too, has many facets. The luxuries of today may be the necessities of tomorrow. And what are luxuries for one person may be actual necessities for another. In many lines of business and professional life the automobile is an actual necessity. A large percentage of men who use their cars to take their families on pleasure jaunts do not keep the car primarily for this purpose, but as a necessity of their business. The automobile industry is so necessary an adjunct to the business life of the American people that its continued progress is one of the most vital factors in American life today.

No single agency, the railroad excepted, has done so much to promote the business prosperity and economic advancement of America as the passenger automobile alone—to say nothing of the incalculable benefits of the motor truck.

The motor car has done more in ten years to promote the building of highways than all other agencies combined during the previous thirty years. Better roads mean better transportation and this, in turn, is a matter that concerns every man, woman and child in America.

Improved roads now make it possible to successfully cultivate farms at points some considerable distance from railway points and autos and good roads are today saving a great quantity of farm produce which, before the day of the automobile, was wasted for lack of transportation.

Whatever attempts to interfere with the automobile industry seriously tampers with the delicate balance of business economics as a whole. The automobile industry, if properly supported, will help the whole nation withstand the force of almost any economic shock.

Forty-two stowaways were found on one ship at its arrival at New York. Where the passenger were quartered is not stated.

## BIG HOLIDAY TRADE

IS ANTICIPATED BY THE MONARCH ACCESSORY COMPANY; TO BUILD

The Monarch Company, dealer in automobile accessories at 121 South Brand Boulevard, is getting ready for the large holiday business which it expects. Another showcase is to be put in so that goods can be displayed to better advantage.

Perhaps lots of home people do not appreciate the fact, but nevertheless few concerns in towns much larger than Glendale carry as large and varied a stock of goods as does the Monarch. Among those who do appreciate this fact, however, are automobile mechanics, for they generally find here anything they want in the way of tools.

Do you know that you can buy a high-class driving glove, for either a lady or gentleman, cheaper at the Monarch than you can in Los Angeles? Well, you can. Then there are robes of the finest quality which you can purchase for less money than you can at department stores in the city. If you doubt it, price them at the Monarch and in Los Angeles. And the thermos bottles—they're beauties. There are scores of articles in this store appropriate for Christmas presents and which would gladden the heart of any automobile owner.

The Monarch Company owns a fine lot at Brand and Harvard, and it is probable that a substantial store building will be put up there next spring.

## Don't Race With Train

There are four very simple rules which if followed by automobile drivers will practically eliminate accidents at grade crossings, says the National Safety Council. They are: Never race with a train for a crossing.

Never attempt to cross without first making sure that it can be safely done.

Obeey warning signals given by bells, gongs and watchmen.

Stop when crossing gates are lowered for passing trains.

## A BEAUTIFUL CAR

STEPHENS SALIENT SIX IS WELL WORTH STUDYING; OF WONDERFUL CONSTRUCTION

If you are an admirer of beautiful high-class cars it is well worth your time to step in at 143 South Brand Boulevard and examine the Stephens Salient Six. L. N. Hagood will take pleasure in explaining the principal features of this great car and you will no longer wonder why a car should sell around \$2700.

Yesterday Mr. Hagood backed a Stephens down a 27 per cent grade until he reached a speed of from twenty-five to thirty miles and then took his foot off the clutch and immediately she began to ascend in first gear, into which it had meantime been thrown. There were four passengers in the car at the time. Such an experiment with the average car would have resulted, probably, in completely tearing out the rear gearing. This demonstrates what kind of material such a car is constructed of. More will be said about this later.

Howard Walker of East California avenue is among local people who recently purchased a Stephens Salient Six.

## BUSINESS TO BOOM

T. G. WIDMEYRE, OF THE NASH AGENCY, PREDICTS GOOD TIMES AHEAD

"The result of the election shows that a vast majority of the voters of the country think that a Republican administration is going to insure us good times," said T. G. Widmeyer, of the Nash agency, on North Brand boulevard. "Confidence begets prosperity nationally. It is only when people become timid through fear or doubt that panics follow; capital is withdrawn from circulation and then comes the period of 'hard times.' But restored confidence must follow the unprecedented vote for Harding and I believe that business in all lines is going to be brisk from now on. According to reports from railroads and other sources tourists will begin to flock into Southern California and thousands of these will locate here permanently. Of course, Glendale will get its share of these new-comers and probably a few extra ones for good measure. The future looks bright to me and I am as happy as a lark in spring-time."

## OVERLAND SALES

MR. FERGUSON MAKES A GOOD SUGGESTION ABOUT SOILED WINDSHIELDS

The A. B. Lawrence agency on E. Broadway has just sold an Overland sedan to Luca Ferraiolo, owner of a Broadway cafe. Within the past week the local agency also sold two Willys-Knights in Los Angeles and one in Pasadena.

M. R. Ferguson, of this agency, called the writer's attention to the fact that a great many accidents are due to dirty and fog-covered windshields. Police officers attribute a pretty large percentage of accidents to shields so dirty that the drivers' vision is obscured.

Whenever the driver finds that this condition exists and he is unable to remedy the trouble just at the time he should raise the upper half of the shield sufficiently to permit of an unobstructed view ahead.

### TOOK A TUMBLE

PRICES OF CERTAIN MAKES OF TIRES COME DOWN—PLATT'S PREDICTION

Wilbur M. Platt, 129 South Brand boulevard, announced that on November 1st the prices of Royal and Hartford cord and Hartford and U. S. fabric tires had been reduced from 7 1/2 to 12 1/2 per cent, while a reduction of 15 per cent had been made on tubes of these makes.

Mr. Platt says that he does not look for any further reduction on these goods before next June, but that he may possibly be mistaken in this.

### CARLOADS EN ROUTE

FORD TOURING CARS AND ROADSTERS WILL ARRIVE SOON—70 ORDERS BEHIND

Two carloads of Ford roadsters and touring cars are en route from Detroit for the Glendale agency on East Broadway. Jesse E. Smith, owner of the agency, says that the consignment will probably reach here sometime between now and the tenth of the month. Seventy of these machines have already been ordered.

Immediate deliveries, however, can be made of Ford sedans, coupes and trucks.

## COMFORT

If you have a car that is not equipped with Wind Deflectors, you are not aware of the comfort you are missing.

### "Kozy Wings"

give that cozy feeling and improve the looks of your car. They are the finest made. \$25.00 installed.

## NEW LOCAL AGENCY SIGN POSTING WORK

PACKER & WHITE HANDLING FAMOUS STROMBERG CARBURATOR FOR VALLEY

Packer & White, Studebaker and Moreland truck representatives at 245 South Brand Boulevard, have become agents for the Stromberg carburetor, which is the marvel of the automobile world. It was invented for the purpose of combatting the effects of low-grade fuel and it is most successfully accomplishing the purpose.

The carburetor differs from older styles in that it is a plain tube type, having the air passages fixed in size, while the gasoline is automatically and accurately measured by the air flow itself, at all speeds and loads. The mixture proportion is maintained constant by the "air bleed nozzle" construction, in which a small amount of air is mixed with the gasoline before it reaches the jets. This principle and design is thoroughly covered by Stromberg patents.

Messrs. Packer & White are agents for the whole San Fernando Valley.

AUTOMOBILE CLUB DOING GOOD WORK IN UNIFORM MARKINGS

Sign-posting work on the highways for the guidance of motorists is going on more merrily this winter than ever before in history.

Again Southern California leads America. Knowledge of this, seeping through to the East, has brought thousands of visitors here in the past, and the same is undoubtedly true now.

Not only does the scheduled activity along this line include the rural highways, but all cities in the southern part of the state are considered as well. It will be carried on by the Automobile Club of Southern California in the interest of more and easier motoring.

Re-arrangement of city speed ordinances to comply with the state law so far as zoning is concerned has called for the re-marking of city streets in the municipalities of the southern counties, and the efforts of the Automobile Club to do this work have been uniformly accepted so that the same style of street marking would pertain throughout this section of the state.

Uniformity of road and street marking has proved a boon to motorists who visit this section, as all confusion is eliminated where the work is done by a single competent and authorized organization.

At this time a crew is approaching Kansas City from Southern California putting the National Old Trails signs in perfect condition for winter and summer travel next year.

### Business Picking Up

Messrs. Fish & Tarr, of the Chevrolet agency on East Broadway, say that business is picking up and they anticipate a prosperous winter. By the way, Mr. Tarr insists that it is much easier to sell Chevrolets than it is to serve on an election board when the ballots are of the length that they were Tuesday. He was just about "done up" Wednesday afternoon after the long session at one of the voting precincts.

Willis-Knight cars and in the hands of owners themselves. E. Brazier, of Chase, Md., left the Toledo, Ohio, factory of the Willis-Overland Company on July 22, for his home in Chase, Md., a distance of 582 miles. The car on this long run averaged 22 6-7 miles to the gallon of gasoline despite the fact that it was an unseasoned, unlimbered car.

The purchaser of the car, Daniel Weber, of Rossville, Md., with his wife and daughter, accompanied Mr. Brazier on the trip home. They have made affidavit to the correctness of the mileage record. It required 36 1/2 hours, driving time, to make the trip.

F. D. Warns, cashier of the First National Bank of Coeur d'Alene, Idaho, is the owner of a new Willis-Knight coupe. On a run from Coeur d'Alene to Lewiston, a distance of 412 miles over a level dirt road, the car, carrying four good-sized men, used eighteen gallons of gasoline, an average of 24.2 miles to the gallon. This was accomplished with a Willis-Knight that was practically unseasoned, having been run less than 1000 miles.

Scarcely a mail reaches the Willis-Overland Company that does not contain a report of some new record made by the new Willis-Knight.

## A SUCCESSFUL CLOSE

BARTLETT & FRENCH DO A BIG BUSINESS IN THE LAST HALF OF OCTOBER

The Bartlett & French agency, of the Chandler and Cleveland cars, did a big business during the last half of October. These were among recent sales: Mrs. J. M. Howard, La Canada boulevard, Chandler coupe; Dr. Fred Gray, Eagle Rock, Cleveland touring; H. W. Carrell, at Gray hotel; Archie A. Carver, 721 South Brand boulevard; Hazel Gregory, 432 Oak street; Rev. Harry Rimmer, Glendale; C. A. Martin, 517 West Colorado.

Mr. French said that he was surprised how business picked up suddenly just before election and he predicts that from now on buying will continue brisk. He would not be surprised to see prices go up again before a great while. The Stutz price was increased \$300 a week ago. But, as Mr. French says, no one can predict with any degree of certainty as to what will happen along this line within the next sixty days or so.

## NEW RECORD

REPORTS FROM ALL OVER THE COUNTRY SHOW 24 AND 25 MILES TO THE GALLON

From all parts of the county reports are coming in to the effect that the new Willis-Knight is a motor car of even more remarkable qualities than the series of Willis-Knight cars which have preceded it.

A striking evidence of this fact was established this summer when in the Los Angeles-Yosemite Economy run, the biggest event of the year on the coast, a Willis-Knight romped home in second place in class No. 2, its record for economy in gas, water, oil, being beaten by only one other car—and that winning car happened to be a new Overland Sedan.

In this economy run, a 355-mile test which included 100 miles of mountain travel, the Willis-Knight, driven by Tim Stevens, established a mileage of 21.7 per gallon of gas.

Even better records have been established in drive-aways of the new
